Your personal architectural coach.

COUNSELING, ADVOCACY & ARCHITECTURE

A specialized service in **architectural counseling**, in addition to the usual design services. This service is offered to the entire community, from individual home-owner to corporate CEO, for **anyone** looking for a general advisor, advocate or coach.

- **OPINIONS** Ever wanted an opinion (or second opinion) on some aspect of rezoning, planning, evaluations, design, construction or dispute resolution?
 - Experienced insight from an independent and expert perspective may provide options, critique or a diagnosis you wish you had. The earlier, the better.
- **STRATEGIC INFORMATION** Do you have a question but don't know who to ask, how to express it, or are too embarrassed to ask?
 - You may want to proceed with the confidence that your goals are set to match your opportunities and entitlements and are based on your own due diligence.
- **BRAINSTORMING** Have you ever wanted to brainstorm an idea or test some options without a major contract for services?
 - Alternative and fresh perspectives may yield opportunities not immediately apparent but discovered through investigating outside-the-box possibilities.
- **ADVICE** Do you have a contrarian position needing support?
 - It is not generally easy to be on the defensive, and when there is a lot at stake, a little guidance can often make a significant difference to the outcome.
